

FAMILY AND COMMUNITY ENGAGEMENT PLAN 2024/2025

Cultural Awareness

Broward Schools serves students and families from various countries and cultures. Identify school practices that demonstrate how the values and traditions of the diverse community are incorporated in your school's culture. (ex. serving dishes from a particular culture during school events; acknowledging traditions and holidays; communications and signage in different languages, etc.)

Culture:

Ukrainian Heritage

How is the school acknowledging this culture?

During the morning announcements, we share contributions of Ukrainians to the United States. We make sure to have signs and paperwork sent home in the native languages. During Start with Hello week, students stood outside welcoming others by saying hello in different languages. The Media Center displays books that represent the Ukrainian Heritage culture and customs. Students participate in research projects related to the Ukrainian culture and share their Projects throughout the school. We have added an ESP to pull out groups of ELL children to practice language skills.

Comments:

These activities provide students with an awareness of different cultures and the positive impact they've had to our society.
