

FAMILY AND COMMUNITY ENGAGEMENT PLAN 2024/2025

Cultural Awareness

Broward Schools serves students and families from various countries and cultures. Identify school practices that demonstrate how the values and traditions of the diverse community are incorporated in your school's culture. (ex. serving dishes from a particular culture during school events; acknowledging traditions and holidays; communications and signage in different languages, etc.)

Culture: Hispanic Heritage Month, Deaf Awareness Month

How is the school acknowledging this culture?

Created custom website banners celebrating the months. Information to the staff and students with information about famous people, societal impacts and interesting information about the Deaf population and Latino population.

Comments:

Every month there will be another group or cultural event we will spotlight.
