

FAMILY AND COMMUNITY ENGAGEMENT PLAN 2024/2025

Cultural Awareness

Broward Schools serves students and families from various countries and cultures. Identify school practices that demonstrate how the values and traditions of the diverse community are incorporated in your school's culture. (ex. serving dishes from a particular culture during school events; acknowledging traditions and holidays; communications and signage in different languages, etc.)

Culture:

Hispanic

How is the school acknowledging this culture?

The Hispanic population is growing at Davie Elementary. We bridge the school to home gap by providing translators for conferences, having bilingual speakers in the front office to communicate with parents in their native language, and offering all correspondences in Spanish and English. Our ELL contact and liaison offer ESOL Parent Night every quarter. At the ESOL Parent Night, the community is offered resources to support learning at home.
