

FAMILY AND COMMUNITY ENGAGEMENT PLAN 2024/2025

Cultural Awareness

Broward Schools serves students and families from various countries and cultures. Identify school practices that demonstrate how the values and traditions of the diverse community are incorporated in your school's culture. (ex. serving dishes from a particular culture during school events; acknowledging traditions and holidays; communications and signage in different languages, etc.)

Culture: Lakeside consists of many cultures that is indicative of Florida's southern diversity from staff to students.

How is the school acknowledging this culture?

Lakeside will take on many events or acknowledgement that we know our students or staff celebrate such as Ramadan, Dia De Los Muertos, Hispanic heritage month, black history month, bringing in native dishes, and much more. The school will send out parent links, dress up days, morning announcement facts, staff emails, school events and more as it relates to the cultural event.

Comments:

Lakeside also prides itself on being inclusive as well as we come all differently abled. We acknowledge and celebrate visible and nonvisible disabilities and awareness through Unity Day, inclusive schools week, special Olympics, Best Buddies and more.
