

FAMILY AND COMMUNITY ENGAGEMENT PLAN 2024/2025

Cultural Awareness

Broward Schools serves students and families from various countries and cultures. Identify school practices that demonstrate how the values and traditions of the diverse community are incorporated in your school's culture. (ex. serving dishes from a particular culture during school events; acknowledging traditions and holidays; communications and signage in different languages, etc.)

Culture:

Hispanic (various S. American and Caribbean countries), African American, Haitian, Caribbean, Caucasian and Vietnamese students make up our school community and student body.

How is the school acknowledging this culture?

We strive to create an inclusive society here at New Renaissance MS. In order to make this happen we ensure that we establish communication to our stakeholders in various languages including, English , Spanish, Haitian Creole, and Vietnamese. Signage is also translated so that our students and visitors feel welcome. We also support our families by ensuring that our English for speakers of Other Languages (ESOL) department contact our parents and ensure that they are a vital partner in our educational experiences. In addition to the items listed above our performing and unified arts department produces program for Hispanic Heritage, Black History, and Haitian Heritage months.
