## Vision Statement

The school counseling vision statement communicates what school counselors hope to see for students five to 15 years in the future. It aligns with the school and district vision.

The school counseling vision statement:

- Describes the future world where student outcomes are successfully achieved.
- Portrays a rich and textual picture of success, providing a full image of what students become.
- States the best possible student outcomes that are five to 15 years away

In a future where every student thrives, our graduates emerge as confident, compassionate, and resilient individuals—equipped with the academic, social-emotional, and career-readiness skills to lead purposeful lives. They are lifelong learners, inclusive leaders, and engaged citizens who adapt, innovate, and contribute meaningfully to a diverse and dynamic world.
