4.	School administrators advocate for all SWDs to have the same school choice options as students without disabilities to ensure all SWDs receive educational services in their neighborhood school or school of choice.	<ul style="list-style-type: none"> The principal contacts the district to obtain information about SWDs who do not attend the school because of the type or severity of their disability or perceived lack of services available at the school. The principal requests services and supports to follow SWDs in the school. The school has a diverse student population that reflects the full range of students who live in the neighborhood school zone, including those with significant disabilities. The school is equipped to provide educational services to all students. <p>Suggested Measures: Documentation of school administrator requests for information (e.g., emails, memos) to the district office, roster of SWDs in school's zone who are not attending the school.</p>							
<p>Note: Aligns with District BPIE Indicator #3. This indicator addresses the practice of placing SWDs in schools based primarily on exceptionality, label or services needed, rather than identifying and allocating resources for all SWDs to receive educational services in their neighborhood school or school of choice. Students who are transported to attend other schools are at risk of disenfranchisement from the communities within which they live and lack opportunities to build natural relationships among the students in the assigned school. With the practice of placing SWDs at schools based on their exceptionality, unintended consequences include further isolation of students with significant disabilities and barriers to scheduling SWDs into heterogeneous classrooms that have natural proportions of students with and without disabilities. Please see the Appendices: Glossary of Terms section for definition of the above term natural proportions.</p>

7.	School administrators communicate expectations for all school personnel to share responsibility for all of the students in their building and consider all SWDs as general education students first.	<ul style="list-style-type: none"> Administrators clearly and consistently articulate the following expectations for all school personnel during faculty meetings, School Advisory Committee meetings, PLCs, staff newsletters, etc.: -- General and special education teachers are expected to share instructional and behavioral support responsibilities for SWDs in each classroom and other school settings. -- SWDs are not the sole responsibility of special education personnel during academic and non-academic school activities. -- School personnel refer to special education teachers by name rather than exceptionality of students on their caseload (e.g., Mrs. Smith rather than the Autistic Teacher). -- All school personnel are trained and responsible for safety and evacuation procedures for SWDs. Administrators provide written rationale and other resources (e.g., research articles, newsletters, websites) with information and strategies on inclusive practices. Administrators survey staff to determine beliefs and attitudes about inclusive practices. Administrators review staff schedules to ensure all personnel have opportunities to support students with and without disabilities. Case managers monitor the participation of SWDs in non-academic activities. All personnel advocate for the inclusion and full participation of SWDs in school-sponsored activities. SWDs participate in class field trips with same-age peers without disabilities. Separate, "ESE only" field trips are discouraged. School personnel model strategies and create opportunities for students without disabilities to socialize with SWDs in non-academic contexts, (e.g., clubs, common gathering areas, lunch, pep rallies). Ability awareness and diversity training is provided to all students in the school. Same-age peers provide natural supports to SWDs, as appropriate, to facilitate social interactions during school-sponsored activities. SWDs are eligible for and encouraged to run for student government. <p>Note: Aligns with District BPIE Indicator #21. For many students with disabilities, especially those with more significant disabilities, learning purposeful skills in the context of meaningful and inclusive activities is critical to practicing, maintaining and generalizing what they learn across a range of natural settings and situations. Educators should consider non-academic activities when identifying opportunities to develop essential skills such as using money, ordering food, reading, speaking and asking for assistance when needed in natural contexts, with non-disabled peers. School-sponsored, non-academic activities also provide opportunities for students with significant disabilities to interact and develop relationships with same-age peers without disabilities.</p>
