Domain: Leadership

Identify and list at least one (1) element within the selected SAM domain that will enhance MTSS implementation and positively impact student outcomes.	A leadership team is established that includes 6-8 members with cross disciplinary representation (e.g., principal, general and special education teachers, content area experts, instructional support staff, student support personnel) and is responsible for facilitating MTSS implementation
Use the SAM rubric to briefly describe action steps the Leadership Team will take to enhance implementation and improve outcomes.	We will include our literacy coach, content area teacher and behavior specialist in our MTSS meetings as needed to assist with MTSS implementation. Our ESE personnel will be included in meetings where their input and assistance is needed. We will also have the option of meetings on Teams (online) to facilitate team members who may not be able to attend in person.
Write a SMART goal identifying the student outcome(s) the team expects to improve as a result of addressing the selected domain and element(s). Include the data source that indicates evidence of the improved outcome.	There will be increased participation by the leadership team in the MTSS process, as documented by sign-in sheets used to track attendance. Student outcomes will also improve, as demonstrated by higher academic performance (grades and FAST results) and better behavior (increased attendance) monitored through the FOCUS platform.
List the team members who will support and monitor implementation of the two (2) identified elements.	MTSS Leadership Team
