ACTIVITY	STANDARD	DESCRIPTION
Emotion Cards & Mirror Play	Students will recognize, identify, and appropriately express basic emotions in themselves and others.	Using picture symbols and mirrors, students practice matching facial expressions with labeled emotions (happy, sad, mad, scared). Staff model expressions, and students take turns identifying and imitating them. This activity is repeated across grade levels and adapted with AAC devices for nonverbal students.
Emotion Sorting Mats Feelings in Music	LSW A. Students will recognize, identify, and appropriately express basic emotions in themselves and others.	Students sort picture cards of facial expressions (happy, sad, surprised, angry) onto labeled mats. Teachers prompt students to name or point to emotions, and AAC users activate matching icons. Different songs (happy, calm, silly, sad) are played while students identify how the music makes them feel. They choose matching picture cards or gestures to show their emotions.
Sensory Pathways Breathing Exercises (Counting & Rainbow Breathing)	LSW B. Students will demonstrate the ability to manage emotions and behaviors to achieve personal and academic goals.	Hallways are marked with simple movement prompts (jump, stomp, stretch). Students use the path as a self regulation break, learning structured movement strategies. Students learn simple breathing routines using visuals and modeling. Counting Breaths (inhale for 3, exhale for 3) helps with pacing, while Rainbow Breathing uses arm movements to "draw" a rainbow in the air while breathing deeply.
Partner Puzzles	LSW C. Students will engage in positive social interactions and demonstrate respectful and cooperative behaviors.	Students are paired to complete simple puzzles or matching activities. Success requires cooperation and sharing
