08:40a

End Time:

09:15a

SMART GOAL

By May 2027, 60% of students in grades 6-8 who are in the lowest quartile will make learning gains on the F.A.S.T. in ELA.
By May 2027, 56% of students in grades 6-8 will demonstrate proficiency on the F.A.S.T. in ELA/A.

Recorder: Mrs. Youngblood McGowan

Materials to bring to meeting: Laptop, Paper, Pen

Action Items	Who?	Estimated Time	Notes
Reflection/Results: Share evidence of how the strategy help addressed the SMART goal			How did testing go? What challenging did you experience? What can we do differently for PM2? Review of the CERP.
Our Challenge: What do we expect our students to learn?			Preparing for the transition from Getting Started to Workshop 1. Ensuring that the Code students are placed correctly verifying test results with the San Diego Assessments. Being aligned in expectations of Board Configuration; Usage of Gradual Release Model; Implementation of small groups. ELA- Connecting the standards to the text
Evaluation Method: How will we know that they are learning?			For the stations different handouts will be given as a recommendation to assist with grading- Reading will be using the same resources across the grade. Ensure you have access to HMH platform and classes are set proper.
Intervention: How will we respond if they don't learn?			With the data received from the MAPS, the initial groups will be formed. Self tracking forms that will assess the pace of the student in student application. Students will set their Winter 2026 goals and complete data chats
Enrichment: How will we respond if they already know it?			Blooms Taxonomy! Ensure for the students that are on grade level are being exposed to the resources that are on their level. CLMS Canvas course where we utilizing for 3/3/30.
Open Agenda: (if time permits)			Q&A about the new Read180 & the Code interface.

Materials needed for our next meeting:

Laptop, pen and paper, and an open mind.
