FAMILY SUPPORT

FAMILY SUPPORTS

Family Support Programs provide county-wide support to Broward families at risk for child abuse, neglect, out-of-home placement, or crisis. These programs use trauma-informed approaches to help families build resilience, improve parenting skills, and stay safe together.

FAMILY STRENGTHENING

Family Strengthening Programs offer intensive and group-based support using proven parenting education curricula to help families build stronger relationships, improve communication, and create safe, nurturing environments for children.

Therapeutic Services, a high-intensity initiative within Family Strengthening, provides voluntary in-home and community-based support to families at risk of child maltreatment. These services are provided in trauma-informed practices and focus on building resilience in children and caregivers while addressing family challenges before they escalate.
