Vision Statement

The school counseling vision statement communicates what school counselors hope to see for students five to 15 years in the future. It aligns with the school and district vision.

The school counseling vision statement:

- Describes the future world where student outcomes are successfully achieved.
- Portrays a rich and textual picture of success, providing a full image of what students become.
- States the best possible student outcomes that are five to 15 years away

Counselors and staff will work with students to earn a high school diploma.
Students and parents will work with our BRACE advisors to explore post-secondary options, resources for post secondary training as well as financial aid.
