Testing Strong, One Step at a Time — Be Prepared! This month, the focus is on preparing students for upcoming assessments by building confidence, strengthening academic vocabulary, and developing effective test-taking habits. Families can support learning at home by encouraging students to read passages aloud to improve comprehension and fluency, and by reviewing key vocabulary they may encounter on tests. Ask your child to explain their thinking when answering questions and create a quiet, structured study time. Small, consistent efforts at home can make a big difference in helping your child feel confident, prepared, and ready to succeed.

Speak Excellence. Model Excellence. Achieve Excellence.

Excellence is the Expectation!
