North Area Updates - Cynthia Augustin, SAF Chair

BCPS Cares –

New district website was launched to create a cleaner, more modern, and user-friendly experience. As a result, the initial rollout served as a “move-in” phase, with ongoing refinements and updates since July. While many pages still display stock photos, the goal is to replace them with authentic school images, and schools can request updates to locked sections like banners and Proud Points through an Incident IQ ticket. She highlighted new features such as the Hero Showcase and “Enroll Now” button, which support school identity and the district’s enrollment marketing efforts under “Choose BCPS.” Emphasized that websites are living platforms requiring regular updates and encouraged schools to stay current with content, meeting minutes, and community information. To support this, her team provides monthly communiqués, open labs, and training sessions for web managers, and they meet weekly to address feedback and issues. Transitioned to the BCPS Cares initiative, explaining that it was developed to streamline how parent concerns are handled. Instead of escalating issues directly to the superintendent, parents are encouraged to follow a clear process: first contact the teacher, then the principal, and if unresolved, submit a School-Related Concern form or email the North Region office at BCPSCaresNRO@browardschools.com. The system routes concerns to the appropriate regional staff to ensure timely responses and accountability, while also allowing parents to submit compliments recognizing outstanding staff or schools, each region has its own email address.

SAC Funding –

After much speculation, it has been confirmed that schools would not be receiving SAC rollover funds this year. The new CFO has decided to eliminate rollover dollars entirely, and although schools will still receive A+ recognition and workforce education funds, those too will not carry over into the next year. Provided an overview for new SAC chairs, explaining the different types of school funding, including A+ or “accountability” funds and SIP funds. Shared that since 2021, Broward County has not been funding schools’ SIP allocations. Recently, schools learned that

their rollover balances—often used for tutoring, SAT prep, camps, and student incentives—had been wiped out without prior notice.

Redefining Update –

Discussed the upcoming meeting on October 27 at Coral Springs High School to discuss programmatic changes at the North Area middle schools.
