☆ Waiver Purpose

School Improvement Waivers are designed to remove barriers to school improvement that have been found in state statute, school board policy, or collective bargaining contract (see School Board Policy #1403). Waivers must be based on sound educational research and evaluation, must be budget neutral to the district, must be supported by stakeholders in the local school community, and must be approved by 66 2/3% of the faculty. Waivers may be approved for up to five years by the School Board, but the faculty must approve the waiver each year. Waivers must be equitable for all students in a particular student group.

- VII. Write the exact language of the school board policy or contract article that the proposed waiver will supersede.
- VIII. State the waiver: change, delete, or add to the policy or contract so as to fulfill the requirements of the proposed waiver.
- IX. State the rationale for the proposed waiver. How will the proposed waiver support school improvement? Give background information, history of barrier, etc.
- X. Recognizing that one strategy alone does not affect school-wide achievement, identify and explain the baseline data for the proposed waiver.
- XI. What reliable research studies, proven strategies, best practices, or similar programs support the probable success of the proposed waiver?
- XII. **Coral Springs HS (1151)** will evaluate the effectiveness of the waiver each year. Include current data in alignment to the baseline data to measure the impact of the waiver.

- XIII. **Coral Springs HS (1151)** confirms that for the upcoming school year, we will include our four Professional Study Days as part of our Master Plan (PLC Proposal) for approval by Professional Development Standards and Support (9759). Failure to meet the criteria set forth by Professional Development Standards and Support for the Master Plan will result in the denial of a Continuation Waiver for Professional Study Days.

Coral Springs High 25-26 PSD Continuation Waiver Mid-Year Data

Our current PLC schedule on PSD days is effective as teachers have a scheduled time to collaborate and review student data.

In Algebra 1, proficiency increased from 10% on BSA 1 to 18% on BSA 2 and 35% on BSA 3. District performance was 17%, 23%, and 47% respectively. While Algebra 1 remains below district, the data shows meaningful growth and continued progress.

In Geometry, proficiency was 37% on BSA 1, 10% on BSA 2, and 63% on BSA 3. District performance was 28%, 14%, and 46% respectively. Geometry showed strong recovery and exceeded district performance on BSA 3.

In response, the math department increased instructional monitoring, reteach of weak standards, and targeted support through tutoring, push-ins, pull-outs, and Math Squad. Overall, the data reflects positive movement in both areas, with continued focus needed in Algebra 1 as we move toward the EOC.

In Biology, proficiency was 75.5% on BSA (Q1) and district was 64% using 5 standards. Proficiency was 65.1% (Q2) and district was 57.4 using 8 standards. Proficiency was 66.7% (mid-year) and district was 53.7% using 22 standards.

In ELA, proficiency for 9th grade was 41% for PM1 and district was 48%. Proficiency was 41% for PM2 and district was 52%.

Proficiency for 10th grade was 33% for PM1 and district was 44%. Proficiency was 39% for PM2 and district was 50%.

In US History, the mid-year BSA results were 64% compared to the district results of 59%.
