Minutes

- i. Welcome: Mrs. Relyea - **6:45 p.m.**
- ii. Adopt September Meeting Minutes: Mrs. Relyea
 - i. Mr. Thompson moved to adopt the September meeting minutes. Mr. Laverde seconded.
Motion passed unanimously.
- iii. District & Central Regional Updates: Mrs. Relyea
 - i. Calendars are almost secured for the 26/27 and 27/28 school years. They have not been voted on yet but the School Board has come to a consensus that school for the next 2 years will begin on August 10th each year; full weeks off for Thanksgiving Break; end first semester before Winter Break; Teacher Planning on General election day in even years (President and Gubernatorial elections); and days off for specific dates that would interfere with operations in the school district.
 - ii. Vape Detectors will be installed in bathrooms and portables in high schools and middle schools. There are concerns about false alarms and staffing requirements to meet this demand.
 - iii. The District wants you to know that there are many services that are going unused that are available to students and families. If there is anything that students need, please reach out to our school and/or District to inquire if there is a program that meets these needs such as homelessness, grief counseling, food insecurity, etc... Please also note that the School Lunch Program applications are still open and we encourage you to fill it out at myschoolapps.com
 - iv. At the October 14th School Board Meeting, the concept of a Nova Hub Bus Plan was referenced. Upon Further research, we found that there was a Transportation Workshop on May 20th that included a presentation of streamlining buses for the District for magnet schools and for the Nova Complex. More information to follow.
