G. Stakeholder feedback

- A concern regarding classroom air conditioning (AC) was raised by Jahir. The question was asked as to why classes could not be canceled when air conditioning is unavailable.
- Ms. Smith explained that the AC issue may occur only a few minutes before the class begins, at which point most students have already arrived at school through parent drop-off or school buses. Canceling classes at that time would create logistical challenges and a domino effect affecting the school schedule and overall operations, parents and students.
- Ms. Smith also emphasized that the school does its best to address AC issues promptly and minimize the impact on students and staff.
- Ms. Deese provided additional information and clarification regarding the concern.

H. SESIR Report

- Mr. Williams showed the SESIR Report from August 2025-July 2026. An updated SESIR Report for 2026-2027 SY will be provided at the next SAC meeting.
- A question was raised regarding random searches. It was clarified that random searches are not currently being conducted. It depends on if there is a reasonable suspicion to search a student.

I. SAF District Update

- SAF Chair from 2025-2026 SY did not provide any update aside from a recent SAF training that occurred.

J. Announcement

- Ms. Deroseney shared the September activity calendar and highlighted several upcoming activities and opportunities, including the vocal program. She also announced that applications for the Igniting the Youth Council are available. Students in grades 10–12 with a GPA of 2.5 or higher are eligible to apply and should submit their applications by the designated deadline.
- Mr. Smith shared information regarding Saturday services offered by Broward County for seniors, older adults, and children. He also informed members that food pantry resources are available to individuals and families who are in need of food assistance.
