E. School Improvement Plan Curricular Update: Science- K. Agnew, Science Department Chair

1. We recognize the Biology EOC and its literacy component are key factors contributing to our school's overall performance score. This reflects our school-wide focus on enhancing both scientific understanding and literacy skills.
2. Science impacts different areas.
 - a. Science plays a vital role in enhancing reading and math skills, mainly through vocabulary development. The Biology EOC and its literacy component significantly contribute to the school's overall performance score. The 2024 Biology EOC proficiency goal is to improve from 70% to 73%.
 - b. The Biology team is dedicated and collaborates regularly, using common formative assessments and unit tests to analyze data and guide instruction. Teachers also offer after-school tutoring, and extended learning opportunities will be available in the Spring.
 - c. The Biology EOC is divided into three main categories, the largest being Organisms, Populations, and Ecosystems. Currently, students are focusing on Molecular and Cellular Biology, which accounts for 35% of the assessment. While 70% of students score at a level three or higher, the pool of students is shrinking as Pioneer Middle School assesses more students each year. Additionally, AP and AICE courses in Science contribute to school improvement through acceleration points.
 - a. 9th-grade students who are in Environmental Science are taking a Duck Unlimited Certification. This certification is in conservation management, market ecology conservation, and management.
 - b. We are proud of the students' accomplishments and looking for continual improvement.

F. State and District Assessment Updates- M. Megna, Testing Coordinator

1. This presentation is to inform how the school grade is calculated.
2. Graduation Requirements are that all scholars earn a three on the 10th Grade FAST Reading and a three on the Algebra 1 EOC. Scholars are provided with opportunities to achieve these goals through alternative tests.

3. Testing began in Florida with the FCAT. It has evolved to the FAST testing given now.
4. The purpose of state testing is to measure student achievement, hold schools accountable, and provide school grades.
5. The Blueprint for FAST testing is that the test is adaptive to the scholar.
6. Parents and/or Guardians can access student results on the FAST through FOCUS.
7. Students who need accommodations for the PSAT/SAT must apply directly to the College Board to receive those accommodations.
8. MAP testing for Reading is new this year and is administered three times a year.
9. Teachers are provided with professional development to conduct the appropriate testing environment. Test security is a priority. Students are not allowed to access their phones, smart watches, or AirPods.
10. Tests are invalidated for breach of security. For national and international exams, phones are confiscated, and photos are reviewed for confidential images of the exams. College Board can deny future testing on SAT/ACT for scholars caught breaching security. Cambridge may have more severe consequences.
11. The opportunities provided for the scholars who have not made concordance are FAST PM 1, FAST PM 2, FAST PM 3, Summer Retake, SAT, PSAT, and the CLT. Seniors are allowed to take the Florida Civics Literacy Exam which is needed in their first year of college.
