

# Central Park Elementary

**ONE TEAM! ONE DREAM!**

**School Advisory Council Meeting**

Wednesday, February 25, 2026

- 1. Welcome and call to order**
- 2. Approval of previous SAC meeting minutes**
  - SAC meeting minutes of December 3, 2025 - review and approval
- 3. School accountability funds**
  - Update on current balance: **\$2,524.55**
- 4. School Environmental Safety Incident Reporting (SESIR)**
  - Overview and updates <https://www.browardschools.com/Page/38107>
- 5. School Improvement Plan (SIP)**
  - Mid-Year Reflection
- 6. Curriculum updates**
  - ELO Camp, Science Blitz, Math Pull-Outs
- 7. Committee updates**
  - Reading, Math, Science
- 8. Principal's updates**
  - Key announcements and information
- 9. Questions and feedback**
  - Open floor for questions and comments
- 10. Next meeting**
  - Scheduled date and time: **March 25, 2026**
- 11. Adjournment**
  - Closing remarks

---

Central Park Elementary School  
School Advisory Forum (SAF)  
Meeting Minutes  
February 25, 2025

The Central Park School Advisory Forum (SAF) met on February 25, 2025.

Guests that attended: Douglas Satran, Melissa Million, Craig Ewart, Lisa Raska, Monika Moorman, April Allen, Bianca Foote, Lori Turner, Gilia Martinez, Shareeke Edmead-Nesi, Jael Ciappesoni

Mr. Satran called the meeting to order at 8:38 AM

Mr. Satran requested a motion to order to approve the minutes. Mr. Ewart made the motion, and Ms. Raska seconded the motion.

Ms. Millions said that the state is focusing on a requirement of 150 minutes per week of physical education, not including recess. Ms. Million said that recess is 20 minutes per day of free play. Ms. Million said that the district is drafting an updated elementary P.E. policy and reviewing resources and staffing. Ms. Edmead-Nesi asked if this is approved or still in discussions. Ms. Million said that it is still in the drafting process.

Ms. Million said that HB423 adds to, and updates required safety planning and training for mass casualty responses. Ms. Million added that HB 859 requires audio/video cameras in certain self-contained ESE classrooms. Ms. Turner clarified that consent from parents of all students in the classroom would be needed for cameras to be used. Ms. Million said that HB 173 expands situations where schools need written parent consent for certain student questionnaires and screenings. Ms. Million explained that this could mean more training, documentation, and parental communication.

Ms. Million said that the district is discussing cutting back on elementary benchmark testing. Ms. Million explained that the State FAST/STAR testing will continue to be in place, but the goal will be for there to be less testing time and more instructional time. Ms. Million said that the district will consider concerns raised by teachers and parents before changes are finalized. Ms. Million said that one of the concerns voiced was that computer-based testing for grades K-2.

Ms. Million said that CPE is not a hazel health campus because we didn't meet the consent threshold to participate. Ms. Million added that the Hazel Health program is likely ending next year. Ms. Million said the contract ends June 2026 and renewal is not expected. Ms. Million explained that BCPS reported that 47 schools do not have a full-time nurse but have rotating clinical nurse support and a trained school staff member in each clinic.

Ms. Million requested a motion to adjourn the meeting. Ms. Raska made the motion to conclude the meeting. Ms. Turner seconded the motion. The meeting concluded at 8:45 AM.

---

please continue to encourage their children to interact with the program. Ms. Moorman gave a shout out to the Everglades Student Ambassadors who work hard to keep our campus well cared for alongside our parent volunteers. Ms. Moorman said that we had a representative for the Broward County Farm Bureau visit us and provide us with a \$200 grant.

**Principal Updates:**

Ms. Morman said that last night, at 9 PM, we got a \$500 Allowance for PE equipment because we got 400 students registered for the Kids Heart Challenge.

Ms. Turner said that we are waiting on the final purchase order from the district for the playground equipment to be manufactured. Ms. Turner said that the installation will take 6 weeks.

Ms. Turner said that there will be a change in our traffic pattern for next year because we may be changing the way we enter and exit the school. Ms. Turner said that our challenge is that people are jaywalking across Cleary Blvd. Ms. Turner explained that we have two designated cross walks. Ms. Turner said that the city is working with us on how to best maximize safety for our students. Ms. Turner said that once the fence is in place, there will be two entrances to the school. Ms. Turner clarified that the district does not have funding at this time to install the fence. Ms. Turner said that the parking lot will be redone but the city of the Plantation has not approved where the trees from the parking lot will be relocated. Ms. Turner explained that the city requires that the trees be relocated on campus, although we do not have the space to do so. Ms. Turner said that they intend on removing 16 trees from the parking lot, but two trees must be planted per tree that is removed by city ordinances. Ms. Million recommended that the trees be placed on the swale. Mr. Ewart asked if the trees could be declared a nuisance so they can be removed without relocation. Ms. Million said it may be a longer process to declare a tree a nuisance than going through the traditional city process. Ms. Million said perhaps parents expressing concern at the town hall would encourage a faster process. Ms. Turner said that we have two portables in the back by the basketball courts which we are trying to remove to repave the courts and have more space to play on.

Ms. Martinez said there will be an LSW survey for 4<sup>th</sup> and 5<sup>th</sup> graders. Ms. Martinez said that the opt-out form was sent out to the parents at the beginning of the year. Ms. Martinez said that the survey questions students about life-skills and wellness. Ms. Martinez advised to be on the lookout for an opt-out form for a new curriculum for Reproductive Health and that a hard copy of the curriculum will be in the front office for parents who wish to review it.

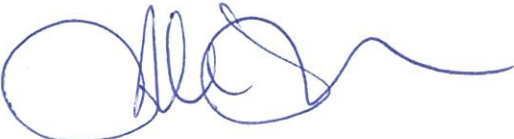

Mr. Satran reminded us that the next meeting will be on March 25<sup>th</sup>.

Mr. Satran requested a motion to adjourn the meeting. Ms. Raska made the motion and Ms. Million seconded the motion.

The meeting concluded at 9:31 AM

Central Park Elementary School  
School Advisory Forum (SAF)  
Meeting Minutes  
January 28, 2025

The Central Park School Advisory Forum (SAF) met on January 28, 2025.

Guests that attended: Douglas Satran, Madeline Piegari, Napoleon Braddy, Craig Ewart, Lisa Raska, Alicia Keppel, Monika Moorman, April Allen, Lori Turner, Gilia Martinez, Shareeke Edmead-Nesi, Jael Ciappesoni

Mr. Satran called the meeting to order at 8:37 AM

Mr. Satran requested a motion to order to approve the minutes. Ms. Raska made the motion, and Ms. Braddy seconded the motion.

Mr. Ewart said that there was an advisory meeting in December and January that he will be summarizing in today's meeting for us. Mr. Ewart mentioned that he asked in the last advisory meeting that they be notified of what happens to motions that have been tabled from previous meetings.

Mr. Ewart said that the mandatory utilization of school funds is a critical financial directive regarding school budgets. Ms. Ewart explained that schools must spend any remaining rollover funds and ClassWallet money before the end of the fiscal year, as the district will recoup unspent balances next year. Mr. Ewart stated that the SAC and principals must immediately collaborate to identify necessary purchases rather than saving funds for the following year. Mr. Ewart added that it was clarified that A+ recognition funds appear lower this year because the district must deduct off of the top before allocation, a calculation mandated by the state.

Ms. Piegari said PTA has covered the students who have lunch obligations and will continue to observe lunch obligations to cover them for the remainder of the year.

Mr. Ewart said that the district is moving forward with the procurement of advanced sensor technology for middle and high school restrooms. Ms. Ewart stated that, unlike simple smoke detectors, these devices will use AI to detect THC/vaping, air quality hazards, crowd size and audio aggression. Mr. Ewart clarified that the detectors will not record video or save audio. Mr. Ewart said that when sensors are triggered, school staff must physically respond to the location to verify the incident, as the technology does not identify individuals biometrically. Mr. Ewart said that this rollout is a priority for the upcoming year.

Mr. Ewart said that Chief Fedrick emphasized that compliance with state safety statutes is non-negotiable and strictly enforced. Mr. Ewart emphasized that every space where instructional learning occurs must be locked when students are present. Mr. Ewart said

---

that deliberately propping doors is a violation of state statute and may result in disciplinary actions. Mr. Ewart added that all gates must either be locked or actively staffed.

Mr. Ewart said that the district is operating under a hiring freeze that affects both instructional support and security personnel. Mr. Ewart added that vacancies for campus monitors are not being automatically filled. Mr. Ewart explained that instead the district is conducting a right-sizing initiative which may result in security staff being moved from schools with surplus coverage to those with deficits to balance safety needs. Mr. Ewart explained that principals are directed to first utilize existing internal staff to cover needs.

Mr. Ewart said that there is an immediate window for community and parent involvement regarding governance and academic pressure. Mr. Ewart explained that policy 1070, which governs advisory committees, has been looped back to the District Advisory Council. Mr. Ewart said that a subcommittee will meet in January, offering a great opportunity for parents to provide input on how their feedback is handled by the board. Mr. Ewart added that there is a task force that has been directed to assess the testing volume. Mr. Ewart said that while the district claims certain tests are not required, teachers report feeling pressure to administer them. Mr. Ewart added that the DAC is expecting an update in January that may clarify or reduce these testing requirements.

Mr. Ewart explained that to address classroom vacancies, the district has identified approximately 200 to 300 certified staff members currently working in district offices that will be deployed back into schools to cover content-specific needs. Mr. Ewart said that there is operational friction regarding how this will be implemented. Mr. Ewart stated that principals are being encouraged to retain autonomy on whether to bring in these district staff or handle vacancies internally to avoid disrupting student-teacher relationships or breaking up classes mid-year. Mr. Ewart said that parents are advised to monitor if their children are in classes without certified teachers and to report instances where specialized staff are being improperly used to cover general vacancies.

Mr. Ewart said that the school choice application window is closing soon, on January 28<sup>th</sup>. Mr. Ewart explained that there have been significant operational changes to the application via the Focus platform. Mr. Ewart said that parents are reporting confusion because the specific school choice options are now listed under reassignment and are not immediately visible as it once was. Mr. Ewart added that it is critical for the community to understand that there are district applications for general reassignment, magnet programs and Nova schools. Mr. Ewart said that families may need to submit separate applications for each.

Mr. Ewart said that there is a crucial distinction in school health operations regarding Hazel Health, a telehealth service, versus a physical school nurse. Mr. Ewart said that while Hazel Health is available in 69 schools as an optional service requiring parent consent, it is strictly a telehealth service. Mr. Ewart explained that a major operational gap identified is that even when a school has a nurse and Hazel Health access, the nurse may lack the physical supplies required to treat the student, forcing parents to come to the school anyway. Furthermore, families must be aware that while the service billed as free to the user, it does bill insurance and may apply towards a family deductible.

---

Mr. Ewart said that the community is being warned of a severe structural funding gap of \$722 million for the 2025-2026 school year, driven by the voucher expansion, operational costs and declining enrollment. Mr. Ewart explained that the financial crisis escalated discussions regarding potential state receivership of the district, which would remove local control. Mr. Ewart said that the action items for the community include preparing for potential school consolidations which would involve seven additional schools being proposed for closure beyond the original list-and boundary adjustments to stabilize enrollment. Mr. Ewart said that the advisory council recommends that stakeholders demand equity impact assessments for any future cost-cutting decisions to ensure budget fixes do not disproportionately harm specific student populations.

Mr. Ewart requested a motion to adjourn the meeting. Ms. Raska made the motion to conclude the meeting. Ms. Turner seconded the motion. The meeting concluded at 8:59 AM.
