Parent concern regarding book obligation process

Parents have the option to opt to check out books. Records are attached to other Broward schools. When the books are returned, the fine is removed. Teachers usually let me know when a field trip is coming up.

Book Collection Analysis

We have 10,000 books in our inventory. The district no longer takes donations due to creating an updated inventory. We have enough in our inventory, which is the maximum. One book for every primary student. The book inventory represents cultures, 32% diverse titles. The hottest titles are the graphics/ fiction. Parent asked about wish list available by age. If the PTA has funds on how to contribute to the inventory. Budgeting is based on student enrollment. Inventory is on the Broward schools website for each school.

Accountability Funds- 12,000 left in balance

Can we divide the funds between grade levels for supplies?

School Improvement

Data reviewed by Mrs. Mack. All schools did well. First grade showed smaller growth. Fourth grade had huge growth. Primary is doing better than intermediate based on IReady data. **Parent input**- Can we use the funds toward assisting with struggling students.

Meeting adjourned.
