III. Review of South Area Advisory Meeting

- The night before the Advisory Meeting, SAF chairs had to complete an online training. It reviewed:

  - A yearly ethics training
  - The basic requirements of SAF
- Linewize:
  - A new program/app where parents can control one school device (school laptop) and one home device (cell phone/iPad). Parents can pause the internet, monitor what children are looking at, and a daily report can be sent.
  - Parents must create an account
- Screen Time
  - Concerns were raised about the daily iReady cut-off time (3:30pm). Children at aftercare or at schools that end after 3:30pm are not able to complete iReady minutes after school. A change will be requested at the next meeting (i.e., daily time limit instead of a cut-off time).
