Purpose of Collection Development Policy

A school library collection development plan serves as a roadmap to guide library materials' selection, acquisition, and maintenance. It ensures the collection aligns with Florida statutes, the District's Strategic Plan Goals and Guardrails, the school's curriculum, and student needs by providing a framework for choosing resources that best support student learning across different subjects and interests while also addressing diversity and appropriate content levels.

A Collection Development Plan Serves Several Important Purposes:

Statutory Compliance: A Collection Development Plan establishes the framework for adhering to the mandatory state statute, requiring each district school board to adopt procedures for developing library media center collections and to post these procedures on each school's website.

District Alignment: Aligns with Broward County Public Schools 2022-2027 Strategic Plan Goals and Guardrails.

Supporting curriculum: The plan should directly connect library materials to the school's curriculum, ensuring students access relevant study resources.

Student needs assessment: It considers students' diverse needs, including reading levels, interests, and learning styles, to select materials that cater to a wide range of abilities.
Selection criteria: The plan outlines clear criteria for choosing materials, such as quality, accuracy, relevance, and alignment with school values.
Budget management: It helps allocate library funds effectively by prioritizing purchase needs based on identified gaps in the collection.
Collection maintenance: The plan includes procedures for discarding outdated or damaged materials and replacing them with current resources.
Community engagement: It involves collaboration with students, teachers, administrators, and parents to gather input on collection needs.

A thorough analysis of the current media center collection at Tequesta Trace indicates that the average age of the collection is 2010 and the number of books per student is 14.4. The American Library Association has established a criteria for a highly effective media center that includes a ratio of 10 books available per student in the collection.

Currently, Tequesta Trace does meet the recommended standards for the number of books per student.

Library Program

Our middle school library media program at Tequesta Trace Middle School is methodically crafted to cater to the diverse needs of our students and faculty. The media center operates on a flexible schedule, allowing educators to schedule visits tailored to their curriculum requirements. During these visits, we prioritize understanding their instructional needs, offering a versatile layout that can be customized to accommodate various teaching methodologies, including flexible seating arrangements, station-style setups, or small group configurations. In addition, we offer morning media time, providing students with opportunities to check out books, read independently, work on projects, and collaborate with peers. Students may also engage with our mobile makerspace, which features rotating activities designed to encourage creativity, exploration, and hands-on learning. This dedicated morning access extends the media center's role as a welcoming space that supports student interests, academic growth, and collaborative learning.

In collaboration with our Literacy Coach, we spearhead numerous reading initiatives, such as Beanstack reading challeneges, challenge celebrations, NewsELA challenges, Teentober calendar events, Celebrate Literacy Week events, an author and school-wide novel study - all fostering a culture of literacy and engagement within our school community. Our calendar features multiple book fairs throughout the year, including the highly anticipated Family Night event, which invites families to partake in the book fair experience alongside their children. Family Night is enhanced with complementary activities, including an art

gallery, Hispanic Heritage month displays, musical showcases by our band, dramatic performances by our drama department and so much more.

Within the media center, we curate Topic Tables, providing teachers curated book selections aligned with their instructional content. Our innovative "book tasting" events expose students to a diverse range of literary genres, fostering a love for reading and exploration. Additionally, our rotating book displays, reflecting school events or national observances like Black History Month and Women's History Month, enrich the learning environment with relevant and timely literature.

Furthermore, we have also had the privilege of hosting distinguished guest speakers like local author Christina Diaz Gonzalez, further enriching our students' literary exposure and cultural awareness. Our middle school media center is responsible for creating our daily morning announcements. Equipped with advanced technology, our in-house studio allows students to lead the production process from start to finish. From scripting to filming and editing, students collaborate under faculty guidance to deliver engaging broadcasts. This hands-on experience fosters leadership and communication skills. The middle school library media program at Tequesta Trace Middle School is committed to nurturing a vibrant culture of learning, exploration, and literacy, empowering our students to thrive in an ever-evolving world.

This includes the ability to obtain information in a variety of formats -electronic as well as print, without fear of censorship or reprisal.

Collection Development

Collection Development is the process of providing quality materials and equipment for the library media center. The goal of collection development is to ensure the collection has information sources in adequate quantity and variety to support student's academic and personal interest needs. The media specialist is charged with leading this process with the input of teachers, students, and parents. Resources are selected according to principles of intellectual freedom and provide all learners with access to information representing diverse points of view.

Selection and Evaluation Criteria (Drawn from BCPS Policy 4120)

Selection of Materials

Funded by the state, district, and school, the media collection will contain a wide range of appropriate materials on varying levels of difficulty in various existing and emerging formats. It will focus on materials that address different learning styles and levels.

Responsibility

The School Board of Broward County is legally responsible for all matters relating to the operation of the Broward County Schools. The professionally trained media specialist is

responsible for coordinating the selection of instructional materials for the School Media Center, consulting with the principal, teachers, and students.

***In the event there is not a school library media specialist,** the Principal and/or Administrative Designee will assume the responsibility for identifying and selecting an instructional staff member(s) to engage in the selection process to ensure materials support the needs of the school community.

NOTE: *Clerical personnel should NOT be responsible for library material collection development and/or resource management and selection of materials.*

Gifts and Donations

Any gifted or donated items must meet the same selection criteria as all other materials—the criteria listed in Florida Statute 1006.28 and Broward County School Board Policy 4120.

Collection Maintenance

Removing materials from a library collection that are no longer educationally appropriate is as an equally important process as selecting new items of high quality. The library media specialist and/or instructional staff should have an ongoing process to evaluate the library media collection and to keep the collection relevant to the changing needs of the curriculum, personal interests, and needs of students. Evaluation of items under consideration for removal from the Library Media Center should be based on criteria related to the educational value of the resources. The removal (weeding) of library materials from the collection is the responsibility of a skilled professional library media specialist. Weeded items should not be disposed of or discarded at the school site. Weeded items should be boxed and identified as DISCARDED or WITHDRAWN and scheduled for pick up by Procurement and Warehousing Services by completing the enclosed Warehouse Assistance Request Form.

Reconsideration of Materials

Inquiries regarding the appropriateness of particular library and supplemental instructional materials are a normal part of the process of providing a wide variety of resources for student use.

Opt-Out Form

Parents may submit their request to limit their student's access to materials in the school or classroom library by submitting a completed Opt-Out Form to the school principal.

The analysis of the collection also revealed the following areas of **strengths** and **concerns**:

Strengths

- The items per student is 14.4 - I feel confident with that number, knowing I have some wiggle room when I weed.
- My aged titles percentage is 50% - and I am right at the CCC requirement of 50% - I will continue to weed annually which will lower that number. I will do a heavy weeding this year.

Having 38% SEL titles in our collection is a strength because it allows our students to explore titles that resonate with their needs and helps to develop character and social-emotional skills.

Focus Areas

- I need to complete a heavy weeding this year, I know I am behind and will be taking required measures to catch up and get the average age of collection down where it needs to be.
- The non-fiction areas that I need to purchase for is arts and recreation – which when I placed my recent order, I made sure to include books for that, the religion section needs weeding since it's date is 1999 and in my recent order I made sure to purchase books in that section, and finally the Literature section needs weeding since the average age is 1995 which is the oldest section – I want to be careful to keep the classics as long as they are intact and in good condition.
- I need to additionally focus on building the fiction section and purchase more there, making sure to include high interest titles that excite students and ignite their love of reading.

Strategic Focus

This page lists the priorities for weeding and purchasing for each school year and includes the actions, updates, and outcomes. This is subject to change due to funding and time constraints.

School Year	Strategic Focus
Year 1 ***2026 - 2027***	**Purchasing Priority:** --An area that is in high demand and needs some updating is our Arts and Recreation section (700s) – especially books that fit the needs of some of the programs offered at our school. --Another area that needs purchasing is the fiction section – this is a beloved section which I feel I am always purchasing for. I recently made an order with many fiction titles. **Weeding Priority:** --The entire collection needs a heavy weeding – all sections. --Our biography section needs weeding - I have not had a chance to do a thorough weeding. That is my focus this year. There are damaged and uncirculated books, as well as aged books there.
Year 2	**Purchasing Priority:** --Next year, my purchasing priority will be fiction (I want to purchase more series and focus on completing series) and graphic novels (especially manga) - they have been more popular this year than other years. --For non-fiction, I want my focus to be technology. **Weeding Priority:** --The Geography and History section could use weeding as the average age of the collection if 2007 and we have more than is recommended – we have room to weed.

Year 3	**Purchasing Priority:** --Continue to purchase titles and books in sections that are in high demand, especially in our fiction section. --Graphic novels and high-interest areas of non-fiction are categories that need regular updating. **Weeding Priority:** --Continue to weed areas that are aged areas - go through the non-fiction areas especially --Weed out books that are outdated, damaged, and uncirculated.

Library Bill of Rights

The American Library Association affirms that all libraries are forums for information and ideas, and that the following basic policies should guide their services.

I. Books and other library resources should be provided for the interest, information, and enlightenment of all people of the community the library serves. Materials should not be excluded because of the origin, background, or views of those contributing to their creation.

II. Libraries should provide materials and information presenting all points of view on current and historical issues. Materials should not be proscribed or removed because of partisan or doctrinal disapproval.

III. Libraries should challenge censorship in the fulfillment of their responsibility to provide information and enlightenment.

IV. Libraries should cooperate with all persons and groups concerned with resisting abridgment of free expression and free access to ideas.

V. A person's right to use a library should not be denied or abridged because of origin, age, background, or views.

VI. Libraries which make exhibit spaces and meeting rooms available to the public they serve should make such facilities available on an equitable basis, regardless of the beliefs or affiliations of individuals or groups requesting their use.

VII. All people, regardless of origin, age, background, or views, possess a right to privacy and confidentiality in their library use. Libraries should advocate for, educate about, and protect people's privacy, safeguarding all library use data, including personally identifiable information.

Adopted June 19, 1939, by the ALA Council; amended October 14, 1944; June 18, 1948; February 2, 1961; June 27, 1967; January 23, 1980; January 29, 2019.

Inclusion of "age" reaffirmed January 23, 1996.

Although the Articles of the Library Bill of Rights are unambiguous statements of basic principles that should govern the service of all libraries, questions do arise concerning application of these principles to specific library practices.
