The goal is to update the collection to an **average publication year of 2010**. Books that do not meet the criteria will be **surplus**.

Redefining School Phase 2 – Broward County Public School: Ms. Nelson presented news that Dolphin Bay Elementary is currently under consideration to become a K–8 center as part of Phase 2 of the Redefining School initiative by Broward County Public Schools. Neighboring schools in the area are also included in this planning process.

Additionally, there is consideration to transition **Glades Middle School** into a technical school, which would provide more career and vocational learning opportunities for students and would directly impact Dolphin Bay Elementary schools.

Ms. Nelson shared current enrollment and demographic data for Dolphin Bay Elementary. She noted that the total number of students within the school's boundary has declined since the 2018 school year, when enrollment was 771 students, to the current count of approximately 480. She reviewed data on the percentage of students assigned to the school who actually attend, as well as those attending charter schools, other Broward County Public Schools, and those enrolled as out-of-boundary students. Ms. Nelson also discussed the number of Pre-K students and ESE classes currently being served. She emphasized the importance of understanding enrollment trends as they impact staffing, funding, and overall school planning.

A decision regarding these proposed changes is scheduled for January 2026, and community members have the opportunity to give input on November 13 at 6:00 PM, Ms. Nelson encourages teachers, parents, and community members to join the discussion. Final notification will be provided on January 14, 2026.

Ms. Nelson will continue to keep families informed as more details become available.

No further input is provided by teachers, parents, and community members.
