Rtl help schools identify students at risk for poor learning outcomes, monitor their progress, and provide evidence-based interventions early on- when students first exhibit signs of learning problems. Implementing proactive data-driven decision making provides teachers with better, more timely information about students in order to improve student learning and performance. The nature and intensity of such interventions can be continually adjusted depending on each student's responsiveness. Specific interventions and supports shall be initiated as soon as a student first demonstrate deficits and literacy (reading and writing), mathematics, or behavior.

- a. A Collaborative Problem-Solving Team (CPST) including classroom teachers and support staff must engaged in data-based problem solving to ensure all students' areas of concern are identified, instruction and intervention or matched to students' need and aligned to the appropriate level of support. Students may need a layered continuum of interventions and supports. The continuum may include implementation of supplemental strategies, standard protocol plans, Targeted (Tier 2)/Intensive (Tier 3) interventions and IEPs. Instruction and intervention implemented through the MTSS/RtI process must be implemented with fidelity, progress monitored, and outcomes documented. Refer to the districts MTSS implementation guide ([link here](#)).

If a transfer students transcript shows a final high school course grade and credit in Algebra 1, Geometry, Biology one, or United States history, or a middle school civics course, transferring course final grade and credit shall be honored without student taking the requisite statewide, standardized EOC assessment and without the assessment results constituting 30% of the student's final course grade.
- d. Validation of courses shall be based on performance in classes at the receiving school. A student transferring into a school shall be placed at the appropriate sequential course level and should be passing each required course at the end of the first grading period. Students who do not meet this requirement shall have courses validated using the alternative validation procedure as described below.

 - ii. A student enrolled in a full-year course shall receive one-half credit if the student successfully completes either the first half or the second half of a full year course but fails to successfully complete the other half of the course and the averaging of the grades obtained in each half would not result in a passing grade.
 - iii. A student enrolled in a full-year course shall receive a full credit if the student successfully completes either the first half or the second half of a full-year course but fails to successfully complete the other half and the averaging of the grades obtained in each half would result in a passing grade, provided the student:
 - 1. Receives a grade of “C” or better on the semester examination in the semester failed and
 - 2. Is absent no more than 10% of the instructional time during the failed semester in the course requiring grade averaging; and

A. High School Grading Calculations

1. Semester Grades.

- a. Courses have two parts called semesters. For non block scheduled schools, each semester grade is made-up of three grades two quarter grades in the exam grade period to receive a passing grade for the semester, the student must earn a passing grade in:
 - i. both quarter grading periods, or
 - ii. 1/4 grading period and the semester examinations.
- b. The weight of each quarter grade is 37.5% of the final semester grade. The weight of the final examination is 25% of the final semester grade. For block scheduled schools, each semester grade is made-up of two grades 1/4 great and the exam grade period to receive a passing grade for the semester, the student must earn a passing grade in the quarter period the weight of each quarter grade is 75% of the final semester grade the weight of the final examination is 25% of the final semester grade. Follow the chart to calculate the semester grade:

Letter Grade	Quarter Points (Non-Block)	Quarter Points (Block)	Semester Exam Points
A	12.0	24.0	8.0
B+	9.3	18.6	6.2
